

Mrs. Sasha Morgenthaler, the doll maker, of Zurich, Switzerland.

Sasha never makes a doll which smiles—it's not natural for anyone to smile all the time.

Love goes into the creation of these dolls, that is why they have the look of real little people.

Sasha Dolls

The dolls of Sasha Morgenthaler are perhaps the most beautiful in the world. And because each doll is made with love, each has its own personality, the individuality of a real person—whether it is owned by a child and becomes, more than a toy, a friend; or whether it is exhibited as a work of art in a major museum, as many of them are.

Mrs. Morgenthaler, the famous Swiss doll maker, is now a grandmother well into her seventies. An artist and sculptress, she first made dolls for her own children and grandchildren; and seeing the sufferings of children during World War II gave an extra dimension of tenderness and sympathy to her creative-doll making.

Originally Mrs. Morgenthaler created and designed only one-of-a-kind, hand made dolls, often custom made, some sold in a handcraft shop in Zurich where she lives, others for exhibition and display. Recently she has allowed a line of Sasha dolls to be manufactured to her specifications by an English toy firm and to be sold in toy shops in several countries. In the U.S. they are marketed by Creative Playthings.

This Week's PICTURE SHOW—AP Newsfeatures.

The charm of a Sasha doll is evident down to the last exquisite detail. This hand made doll is an original work of art.

Gregor and Sasha are factory made, sold in toy shops, but each always has hand painted eyes.

In Africa, Sasha saw a child walking with a sleeping baby on her back, and it inspired her to create this doll.

SOCIETY

Calendar of Events

Tuesday, December 1

The Alpha Delta Chapter, Delta Kappa Gamma, will meet at 3:30 p.m. Tuesday, December 1 in the home of Mrs. Florence Hyatt with Mrs. Betty Foster and Mrs. Alta Breed, co-hostesses. Members are asked to remember the White Elephant Sale to benefit the scholarship fund.

VFW Auxiliary will meet Tuesday, December 1 at 7:30 p.m. at the VFW Hut. Members are asked to bring White Elephant items and plans for the Christmas party will be made.

Wednesday, December 2

District 16 Registered Nurses Association members and guest will meet at 7 p.m. Wednesday, December 2, at Perry's Restaurant for a Dutch treat dinner. Please note the change in meeting date.

Notice

Jr. Auxiliary is sponsoring a Christmas Bazaar to be held in the lobby of the First National Bank Wednesday, December 2, from 7 p.m. to 9 p.m. and December 3 & 4 9 a.m. to 2 p.m.

Party Honors Bride-elect

The home of Mrs. Clyde Osborn was the setting for a party honoring Miss Kathy Thrash, bride-elect of Lee Harn, on Thursday evening, November 13. The hostesses included Mrs. Miles Laha, Mrs. S. Hendrix Spraggins, Mrs. J. S. Gibson, Mrs. Reese Chambliss, Mrs. M. S. Bates, Mrs. Horace Fuller, Mrs. Hubert Thrash, Mrs. Melvin Thrash and Mrs. Osborn.

Miss Thrash was presented a pink camellia which she pinned to her beige dress. Mrs. Ed Thrash, the mother of the bride-elect, and Mrs. Hugh Brown of Dallas, a sister of the honoree, were presented pink camellias.

The 55 guests were greeted by Mrs. Mel Thrash who introduced them to the receiving line. There they met Miss Thrash, her mother, and Mrs. Osborn. Mrs.

Gibson invited the guests into the dining room.

The house was beautifully decorated in burgundy and pink, the choice of colors for the wedding. The serving table, overlaid with white organdy, was centered with a silver centerpiece holding miniature burgundy mums and pink carnations. The cookies, candies and nuts in silver appointments were served with coffee and punch.

The guest book was placed on a round table covered in green highlighted by a Memory Candle. Mrs. Hugh Brown presided. The hostesses presented Miss Thrash a silver serving tray as a gift.

Girl Scouts Salute Mary Anita Laseter

Girl Scout Troop 75 held an investiture and rededication ceremony at the Douglas Building on Tuesday, November 24. Another feature of the program was a salute to a friend of scouting, Mary Anita Laseter.

The seven scouts in the investiture ceremony were Bridget Adams, Kathy Arnett, Georgia Bell, Jan Dillard, Kathy Gunter, Pam Thrash and Barbie Watson. Marie Lee was scheduled to take part but was unable to attend. Rededicating themselves were Tammy Bain, Deborah Bennett, Carla Carey, Kathy Cobb, Jodi Duncan, Jolyn Herndon, Robin McLelland, Pamela Neel, Naida Patton, Debby Petre, Donna Rowe, Bonnie Roy and Shirley Sinyard.

An impressive flag ceremony

the national report on what's happening

By ROGER DOUGHTY

FILM FUN—If you want to make a good movie, reasons Guy Brown, an 18-year-old Cooper Union freshman from Paramus, N.J., make it about something you really like. So that's what he did and for his efforts he ended up being grand prize winner in the eighth annual Kodak Teenage Movie Awards. Guy's 8mm film runs 28 minutes in color and it's called "Where We Seldom Wander." It's about the joy of a teen-age girl who flees the city and takes to nature, leaving the smog and pollution behind. Guy's goal, he says, is to "make people more aware of nature so they'll stop defacing our greatest possession."

JEREMY'S SWITCH—Jeremy Clyde, one half of the Chad and Jeremy singing team (Chad Stuart is the other half) is going the serious route these days, playing a young British officer in the Broadway hit "Conduct Unbecoming." Although Jeremy's idol (he swears) is Alec Guinness and he hopes to do Chekhov, he admits that he sometimes sneaks off to Fillmore East when he gets homesick for rock.

Alec Guinness

Jeremy Clyde

BUILD A CAR—A hobby company has come out with a line of "Strip 'n' Steer" model cars which can be assembled and taken apart again without using glue or tools. The idea is to cut down on glue sniffing. (Well, that's what they told us.)

TIGHT MONEY—Word around the record world is that the price of LPs is due to go up about a buck a throw come Jan. 1. Gives you something to look forward to for the New Year, eh?

MYSTERY UNRAVELED—Ever wonder about the significance of the title of Chicago's hit, "25 or 6 to 4"? Lots of folks thought it had some mystic meaning, but we hear that the tune was written at about 25 or 6 to 4 a.m., which is how it got called "25 or 6 to 4." If you were writing music at 25 or 6 to 4 in the morning you might not be able to come up with a good title either. Speaking of Chicago, one of the guys in the group has a brother who is on the narcotics squad of the Chicago force. How antidrug can you get?

SPORTS SHORTS—In case this sort of thing will make your winter complete, be advised that major league umpires do indeed have off-season things going for them. The one we keep running into is Nick Colosi, a National League ump, who is a captain at Jules Podell's Copacabana when things get cold.

AWARD TIME—This being the time of year when everybody gives awards to everybody else, Youth Beat refuses to be left out. So, to Mike Nesmith, former Monkees now doing a single, goes the Youth Beat "It Wasn't a Hit But It Should Have Been" for his LP, "Magnetic South," which we think was one of the best of the year. "Crippled Lion" has got to go down as one of the better cuts in the last three or four seasons and the nation's disc jocks get five whacks from Maxwell's Silver Hammer for not making it a hit. No, nobody here is related to Mike, but we hate to see a good record go wrong.

USELESS INFORMATION—There are 70 "Rocks" in the New York telephone book, but only 23 "Rolls."

STILL VOTING—We're about down to the line on our man of the year contest, but there's still time left to let us know whom you favor. Write to Youth Beat, care of this paper.

opened the meeting, and the Troop Leader, Mrs. Kenneth Petre, welcomed those present, which included a number of mothers of the scouts. She also recognized two assistant leaders, Mrs. John Cox and Mrs. Earl Whitaker. The Girl Scout Promise and Laws were recited during a beautiful candlelighting ceremony, and during the afternoon several patriotic and fold songs were sung.

As the honored guest watched and listened, a "This is Your Life" sketch was presented for her with members of the troop "standing in" as people who had played an important role in her life. Mrs. Petre read the narration, and the "adult representatives" were portrayed by Jolyn Herndon, Bridget Adams, Jodi Duncan, Barbie Watson and Kathy Cobb. At the conclusion of the program, Mrs. Petre presented Miss Laseter a Friendship Pin on behalf of the members of Troop 75.

Jimmy Stewart Keeps Eye For New Movie in a Bottle

By DICK KLEINER

HOLLYWOOD—(NEA)—I felt like a patron at the chamber of horrors when Frank Westmore, wearing white gloves, carefully unscrewed a glass jar and let me peek inside.

"That's Jimmy Stewart's eye," he said proudly, and there it was, looking up at me from its bed of cotton.

Not Jimmy's real eye, of course. Just the one he's wearing in "Fools Parade."

JIMMY STEWART
guess the glass eye

his new picture. He describes the picture as "a good old-fashioned melodrama, with a G-rating, of course," so don't worry too much about the eye. It's just a gimmick and it should be effective. More about it later.

"Fools Parade," set in West Virginia in the mid-'30s, is the story of three just-released prisoners who have saved up their money to open a store. Villains try to get that money. Stewart, Strother Martin and Kurt Russell (grown up enough for grown-up parts) are the threesome, with George Kennedy as the heavy-in-chief.

They shot much of the film in Moundsville, W. Va., where novelist David Grubb set the story when he wrote the book. Stewart says it is just like it was in 1935.

"The only problem," he says, "was the parking meters, which weren't there then. We took the top off them and parked cars in front, so you couldn't see the rest of them."

They advertised for cars from that period and 200 showed up the first day.

Stewart is supposed to have a full glass eye for the story. Before he left for West Virginia, he practiced

THOUGHTS

So I turned about and gave my heart up to despair over all the toil of my labors under the sun, because sometimes a man who has toiled with wisdom and knowledge and skill must leave all to be enjoyed by a man who did not toil for it. —Ecc. 2:20, 21.

A man is a worker. If he is not that he is nothing. —Joseph Conrad, English novelist.

He who runs from God in the morning will scarcely find him the rest of the day. —John Bunyan, English preacher and author.

HOPE (ARK.) STAR, Printed by Offset

OBSELETE OBSERVATORY. Heart-shaped "Misra Yantra" is one of several huge geometrical masonry figures at New Delhi, India, designed to study the stars. Now used as a children's playground, the observatory was set up in 1725 by an astronomer-maharajah. It couldn't work efficiently today because surrounding modern buildings obstruct some necessary angles of view toward the sky.

HELEN HELP US!

by Helen Bottel

YOUTH ASKED FOR IT!

This column is for young people, their problems and pleasures, their troubles and fun. As with the rest of Helen Help Us!, it welcomes laughs but won't dodge a serious question with a brush-off.

Send your teenaged questions to YOUTH ASKED for it, care of Helen Help Us! this newspaper.

HAIRCUT CRUEL AND INHUMAN TREATMENT?

Dear Helen:

My boy friend had a traumatic experience. He got busted for something he didn't do. The guy who called the cops on him was really the guilty party.

The jail barber cut my boy friend's hair. He came out nearly bald.

It's in the constitution that you have a right to look any way you want to. Plus he didn't do it!

They turned him loose, but now he's so ashamed he won't go out in public until his hair grows and that might take months.

I wonder how a policeman would like it if somebody came along and sheared him down to the scalp?

UNCONSTITUTIONAL

Dear Un:

Your boy friend has my sympathy, but I doubt he has a case. By the time he hired a lawyer and got to court, the "evidence" would be all grown out again. —H.

Dear Helen:

I have this fear problem. You see Roy was the first boy I ever dated. I just turned 13 and he was 18, and I thought I loved him. I got over that feeling, but the memory of that first date lingers on—and not because I'm sentimental.

You see, he tried to scare me with a knife because I wouldn't make out with him. I mean having a knife at your throat, especially when you're only 13, can be pretty rotten.

I can still remember his words, "What's wrong with you?" I can't describe the terrible way I feel when a boy asks me that.

"I'd like to be a friend to a boy, but I don't think I can ever love a fellow. And just talking, or trying to talk to one, makes me

so nervous and tongue-tied that I'll probably never enjoy being with a boy, ever. Oh yes, he didn't do anything, just threatened. I was too ashamed to tell anyone.

Please help! —KIM

Dear Kim:

Talking this fear out can help you conquer it. You must realize that the action of one no-good bully can be forgotten, just as you'd forget the hurt of a long-ago broken arm. He caused no permanent damage—unless you brood about your fright.

A counselor will show you that almost every adolescent (unless kept in cotton batting) has some sort of bad scare. Had you told your parents about it when it happened, I doubt you'd be having traumas now. —H.

Dear Helen:

When Paula is around boys, forget girls! She's gone with hundreds, or so she says, and when one comes within shouting distance, she pays no attention to any of her girl friends. In fact, she doesn't want them around, even if there's a bunch of boys.

She's been dating since the fourth grade, and it's getting worse. I'd like to keep her for my friend, but it seems I'm — UNWANTED CINDY

Dear Cindy:

Change that to "Unwanted Paula" and find a less boy-crazy girl friend. —H.

This column is dedicated to family living, so if you're having kid trouble or just plain trouble; let Helen help YOU. She will also welcome your own amusing experiences. Address Helen Bottel in care of (name of newspaper).

Opening lead—A Q				

The Student looked over dummy after winning the spade lead with his ace. He played his queen of diamonds so he could pick up the suit if all four diamonds were held by West.

When both opponents followed, he led a second diamond to dummy's king. West showed out and, suddenly, the Student had a real problem. How was he going to unblock the diamond suit to make five diamond tricks?

The Student made a valiant effort. He cashed his king of spades and led the nine of hearts. West won with the Jack and, alas for the Student's efforts, West cashed four spade tricks and the Student was down one.

"Didn't I make a good try?" he asked the Professor. "If spades had divided either 5-3 or 4-4, they wouldn't have set me. Guess I'm just unlucky."

"You were unlucky, but not quite as unlucky as your partner, who suffered with

you when you went down. He couldn't have made the contract, since he was dummy, but you could have insured it at trick three."

"How?" asked the Student.

"You should have cashed your king of spades once both opponents followed to the first diamond. Then, when you won the next trick in dummy, you could have led a third spade from that hand and dropped one of those pesky diamonds. West could cash four spades, but that would be all."

The Professor was correct, as always. The Student had not thought long enough before leading the second diamond.

Television and Radio

By CYNTHIA LOWRY

ap television-Radio Writer NEW YORK (AP) — Thanksgiving programming had all the earmarks of a happy conspiracy between the television networks and the American woman.

There were the parades in the morning, football and kiddie shows in the afternoon. The hoped-for result was to keep the children occupied and the men entertained while the women-folk were busy bird-watching in the kitchen.

After the traditional parades, professional football started at noon (EST) on NBC, continuing later with another on CBS. ABC picked up the pigskin after that with a college game.

Meanwhile CBS tossed in a 90-minute cartoon feature broadly based on Mark Twain's "A Connecticut Yankee in King Arthur's Court," and NBC reran its cartoon musical, "The Mouse on the Mayflower" in the afternoon hours.

The evening hours catered more to the feminine audience: cbs's three hour broadcast of the 1955 film musical "Oklahoma," and NBC's "Festival at Ford's," a happy, star-stuffed musical program taped during a performance in the theatre where Lincoln was shot.

The Australian adaptation of the beloved Twain book took enormous liberties with the tale of a contemporary New Englander transported by a conk on the head back in time to Camelot. Our hero was busy stringing the countryside with telephone poles and whipping up an electric toothbrush for King Alfred,

the better to confound the wicked wizard, Merlin.

It was the sort of children's entertainment which recently has encountered stern criticism, and while the backgrounds were often interesting, the animation and the dialogue—was primitive and wooden.

Camelot and all that it has come to mean deserved better treatment.

"Festival at Ford's" was sheer delight for eye and ear. Before a distinguished audience including Mrs. Dwight D. Eisenhower, Mrs. Richard Nixon and other official Washington luminaries—was set a musical feast, suggesting the contributions from the many moods of the nation. It ranged from the Nashville to Motown sound. An emotion-rousing "Battle Hymn of the Republic" followed a low-key and affectionate tribute to Lincoln and his love of the theatre by James Stewart.

Andy Williams was host, and fine performances were turned in by Tennessee Ernie Ford, Bobbie Gentry, Dionne Warwick and the Supremes, all singing numbers they have made famous. Pearl Bailey wrapped up the program with bright and vivacious numbers from "Dolly."

School Free Lunch Goal Is Not Met

By AUSTIN SCOTT

Associated Press Writer

Every weekday morning, four of Mrs. Mary Hudson's children leave their weather-ravaged wooden shack in the northeast Mississippi hill country and trudge down the muddy, red-gravel road toward the school bus.

At lunch, two children get free meals. The other two, victims of a free lunch quota system, often go hungry until they get home again.

Despite new federal laws and funds to back up a White House pledge, the goal of giving all needy children free or cut-price school lunches by this Thanksgiving has not been met in many classrooms—north and west as well as south, urban as well as rural.

Inside the Mississippi shack, Mrs. Hudson said her income, all from welfare, is \$90 a month. There are "a heap of days," she said, when she can't give the two children the 30 cents each needs to buy lunch.

Mrs. Hudson's poverty may be extreme, but her problems with the federal school lunch program are not.

An Associated Press study disclosed that varied school districts—from Massachusetts to Mississippi and from North Carolina to Nevada—aren't meeting new federal requirements.

The government estimates 4 million to 5 million children benefit from the program, but some schools, such as the one Mrs. Hudson's children attend, have a quota system which gives free lunches to some needy children while others just as needy have to pay.

In other schools, the AP study and separate investigations by private welfare and church groups found, officials refuse to notify parents there is a free lunch program, ask children to work for their free lunches, deny lunches as punishment, and segregate children getting free meals so their classmates can see who is too poor to pay.

Local school administrators say such practices, all banned by the new law, have continued because of state and federal administrative delays or because of a shortage of funds to pay for the share of each lunch that federal money doesn't cover.

Without exception, the districts checked by The Associated Press said they would implement new lunch programs by the end of the Christmas holidays that would either conform to, or be closer to, federal law.

It was last Christmas Eve that President Nixon's adviser on hunger and nutrition, Dr. Jean Mayer, promised that all 6.6 million of the nation's needy school children would be getting free or cut-price lunches by Thanksgiving 1970.

Later, on May 14, Nixon signed a bill expanding the program and said: "It will assure that every child from a family whose income falls below the poverty line will get a free or reduced-price lunch.

Regulations to implement that law were published Sept. 4. But a number of school districts have written policies saying they won't start meeting the law until January.

The delays have angered some hunger fighters.

"Millions of needy school children have learned a bitter lesson about how government operates," said Sen. George McGovern, D-S.D., chairman of the Senate Committee on Nutrition and Health Needs. "They have learned that they get promises instead of food when they are hungry."

McGovern estimated that 8.9 million children need free lunches, but said less than half are getting them. He based his statement on end-of-September Agriculture Department figures showing 4.1 million children being fed.

However, sources reported that the department was preparing to announce today that upwards of 5 million needy children benefited from the program in October. This would be a big increase from last year, but still short of the goal of 6.6 million children by Thanksgiving.

Herbert Rorex, director of the department's child nutrition division, said in an interview that "we are moving with a good tempo toward the ultimate objective, but we may not make it by Thanksgiving Day." He acknowledged that many problems remain.

The AP study spotlighted some of those problems: —In Greensboro, N.C., needy children waited more than a month this year until the city could find private donors to pay the estimated 30 cents each lunch cost.

Asked what the estimated 450 needy children had done while they waited attendance counselor John Speas said, "About what they'd been doing for years, I guess. Going hungry, sharing with other kids ... Apparently you're not supposed to get hungry that first month."

Hope Star Sports

Bobcats Take Nashville Scrappers

By BILL MOORE
Star Sports Writer

Last night in Jones Field House, the Hope Bobcats soundly defeated the Nashville Scrappers, 52-39, for their first victory against one loss.

Hope never trailed in the game, taking the lead right from the start on Parker Powell's long shot from the side of the court. Bill Rowland, Steve Harris, and Powell added a goal each and the Bobcats zoomed out to an 8-0 lead, before Nashville's Phillip Artis hit two points for their first score.

Points by Lynn Norton, David Briggs, and Rowland left the Bobcats with a 16-7 margin moving into the second period of play.

Powell, Norton, and Charles Ratliff pushed the score to 22-10 before Nashville took a time-out with 1:32 left in the half. Two field goals by Artis cut the lead to eight points and with 1:06 left, Norton hit the last point of the first half for a 23-16 halftime lead.

So far it looked like a low scoring defensive battle and it later on was proved.

As play resumed in the third quarter, Nashville tightened the score, 23-20, before Ratliff, Powell, and Harris combined to put Hope at a 30-20 lead. Three points by Norton, two by Ratliff, and one by Ronnie Massanelli closed out the third quarter scoring with Hope enjoying a 11 point lead, 36-25.

Floyd Clark opened the last period with two points for the Panthers, and after Rowland hit two for Hope, Steve Dyer pulled Nashville to within four points, 38-34, with five straight points.

However, Hope used some accurate scoring by Norton, Briggs, Rowland, and Powell to widen the lead until the end. Nashville could only scrape up four points the rest of the way.

Norton and Powell led the Bobcat scoring with 12 points each, followed by Briggs with 10, Rowland hit seven, Ratliff for six, Harris scored four, and Massanelli hit one. Artis led Nashville with 15 points.

Earlier the Ladycats felt short of a comeback bid to lose to the Nashville Pantherettes, 54-52, in a thriller to the very end for the first loss against one victory.

Nashville jumped out to a quick 4-0 lead before Hope got started with Betty Rodden hitting the first two pointer with 5:07 left in the first period. Nashville used a quick offense to take a 15-10 lead at the quarter though and Hope would have to play catch up ball.

Janet McCain hit the initial second period score and four minutes later the Ladycats had tied the score at 19 all. After the scoring sea-sawed a little while, Nashville's Karen Shofner hit a basket with two seconds left to give the Scrapperettes a 25-24 halftime lead.

In the second half the Ladycats fought hard but foul trouble and turnovers ruined their late rally.

Once again Hope dropped back until Singleton hit two points with 2:47 left in third period, but Hope could only get two free throws and trailed at the end of the quarter, 41-38.

Nashville, in the early part of the fourth period, stretched their lead, 48-38, but six points by Singleton with helping goals by Rodden and McCain pulled Hope to within one, 51-50.

However, Nashville stalled and scored three points to win the game.

Singleton led the Hope scoring with 18 points. Rodden netted 17, McCain hit 13, and Belinda East hit two, while Gail Gillis led the Scrapperettes with 22 points.

Cindy Hollis, Janice Hobson, Betty Honeycutt, Renee Quillin, Sandra Hamilton, and Judy Reyenga deserve credit for a fine defensive game.

Next Tuesday, the senior boys and girls will host arch rival Prescott in Jones Field House, with the first game starting at 6:30 p.m.

The University of San Marcos in Peru, founded in 1551, claims to be the oldest university in the western hemisphere.

CHEERLEADING EVEN has its casualties on occasion. University of Michigan cheerleaders Chuck Weibel, left, and Terre Macjen, right, share a pair of crutches during a game. They both are hobbling from sprained ankles—suffered while cheering.

Curtain Falls Saturday on SW Conference

By THE ASSOCIATED PRESS

The season curtain falls Saturday for four Southwest Conference teams, but that crucial finale—Texas versus Arkansas—is still a week away.

Rice and Baylor close their year in Waco while Southern Methodist meets Texas Christian in Fort Worth.

Top-ranked Texas, en route to the showdown with Arkansas, pulled the curtain for Texas A&M by whipping the Aggies 52-

14 in the traditional Thanksgiving Day contest Thursday.

But the triumph was expensive for the Longhorns, riding on their 29th straight victory—longest current winning string in collegiate football.

"I am tickled to death with the victory, but it is the most costly victory I can remember," said Texas coach Darrell Royal, looking toward the Dec. 5 meeting with the Razorbacks.

The winner of the Texas-Arkansas battle in Austin takes all—the SWC championship and a trip to the Cotton Bowl as host team against Notre Dame in the Jan. 1 classic.

Steve Worstern the All-American Longhorn fullback, limped to the Texas bench with a bruised hip early in the first quarter Thursday. He already was nursing a torn rib cartilage.

End Bill Atessis repulsed a hamstring muscle, and stellar halfback Jim Bertelsen sustained a blow to his left arm that caused swelling the "size of a grapefruit."

Royal said, "...right now it looks bad...with Arkansas coming up, I can't find very much to be happy about."

Quarterback Eddie Phillips, who tossed two touchdown passes to Danny Lester to trigger the Texas victory, suffered a minor knee injury, and kicker Happy Feller injured his right knee.

"Not his left knee, mind you, his right knee," Royal moaned.

The Longhorns managed, however, to amass 603 yards total offense, including 386 yards rushing that topped their 361.9 yard average—best in the nation.

Sophomore quarterback Lex James was one of the few Texas A&M bright spots, gaining 172 yards on pass completions and running another 77 yards.

He scored once on an eight-yard dash and tossed a nine-yard touchdown pass to Joey Herr.

The loss dropped the Aggies' season record to 2-9 and 0-7 in the conference.

Rice holds a 4-5 season mark and a 2-4 SWC record going against the Bears' 2-8 season record and 1-5 mark in the conference.

A victory for SMU would clinch fourth place in the SWC race for the Mustangs and a 6-5 season mark for coach Hayden Fry.

It will be the last game for Fred Taylor as head coach of TCU, who was fired this week. The Horned Frogs are 2-4 in the conference and 3-6 for the year.

"I always think winning the last game (of the season) is important," Fry said. "The momentum carries over into the next season. And the seniors always like to wind up with a win."

OLDERMAN Jimmy the Greek--- The 'Equalizer'

By MURRAY OLDERMAN

LAS VEGAS, Nev.—(NEA)—It isn't every day you meet an altruist like Dimitrios Synodinos. Especially in a chip-clinking town like Las Vegas.

He is also Jimmy (The Greek) Snyder, a synonym for sports betting odds around the nation.

Jimmy the Greek—the two go together like an ace and a face card in blackjack—claims he spends, out of the goodness of his heart, from \$40,000 to \$60,000 a year telling a panting football (and other sports) populace what the smart money is on important games.

Of course, he's also the guy who told the people in January of 1969 that the Baltimore Colts were 17 points better than the New York Jets (final score: New York 17, Baltimore 7) and that Minnesota in the January 1970 Super Bowl figured to be 12 points better than Kansas City (final score: KC Chiefs 23, Vikings 7).

"I saved them a lot of money," rationalizes Jimmy from Suite 200, done up in modern razz-ma-tazz, in the Alwin Building on Flamingo Boulevard, a slingshot from Caesar's Palace and other Strip hotels.

In Jimmy the Greek's curious logic, the point spread was so great that fans, he claims, were touted off betting on the Colts and Vikings. "If they're favored only 7 points, people'd been more inclined to give 'em a shot," he says. "We equalized it to the point there was very little gambling."

"Equalize" is a big word in Jimmy the Greek's stark speech. "I equalize games," he insists. "I don't pick 'em."

Every week some 200 newspapers from around the United States, plus assorted radio and television stations, call Jimmy's company, Information Unlimited, to find out the "spread" on selected pro and college games. As long as they're legitimate news media, Jimmy magnanimously doesn't charge them a cent. In fact, it costs him—for a press service sports wire in his office, a collection of 36 metropolitan newspapers, a staff of bet-savvy personnel—and his own bustling time.

"I gotta be around here on weekends," he says, "checking out games. Watching the scores come in is like a doctor taking a pulse."

And so, doctor, where's the pay-off?

"Well," he says, pointing around to other offices, "I got this public relations business. We got three major accounts. I got 200 newspapers calling me. If I need a little help, well..."

I almost expect Jimmy to reach out and scratch my back. Instead, he starts talking about the Hughes Tool

Army, Navy to Meet, Neither Overmatched

PHILADELPHIA (AP) — Army and Navy play the second half of their seasons Saturday ... and, for a change, neither figures to be too badly overmatched.

As far as won-lost records go, they rank with the poorest teams in the history of either service academy.

Army is 1-8-1, winnings it opener from Holy Cross, which has yet to win a game, and then dropping eight in a row, longest streak in history, before tying heavily-favored Oregon. Army's poorest previous records were 1-7-1 in 1940 and 2-7 in 1951, the latter in the wake of the infamous cribbing scandal.

With the intimation that this is a public service, he wrote the book. It is the odyssey of Meggyesy as much as an expose on the care and feeding of football players in America.

After one reads Meggyesy's words that pep pills are dispensed by team trainers like "penny candy," and of the cash slipped to star college players by alumni, and of the racism practiced by Cardinal coaches, and that coaches are autocratic and "emasculating" and that President Nixon is a "football freak," after they all get their sensationalized due, we are confronted with the question: Just what does all this mean, if anything?

Nationally, it seems that football is becoming a larger part of the lives of many. Why, we can hardly use lip ice any more without the National Football League giving us the O.K. Its influence also reaches to the young, sometimes in subtle ways.

The idea of Saturday heroes and all-American images is not what is meant, for that may be overblown. But take Pop Warner football. Our son's coach, a man whose avocation is, say, plumbing six days a week, models himself after Vince Lombardi, whose tough, winning ways propelled him to a kind of sainthood. The Pop

Jimmy (the Greek) Snyder

Co., which is big in Nevada since a man who reputedly wears sneakers moved into the penthouse of the Desert Inn, which he bought, and was never thereafter seen.

"Things are going good in Nevada," says Jimmy, "because we got a middle linebacker named Howard Hughes." A phantom linebacker whom Jimmy has never even seen but who helps pay the bills of Information Unlimited.

Dealing in odds and point spreads, then, is the come-on. What makes Jimmy the Greek more of an expert than the next guy?

"I've got 30 years of experience making numbers," he says, "since I was a kid in Steubenville, Ohio."

Now 50, he came to Las Vegas in 1956 to drill for an oil well and started gambling again. He quit in 1963 when interstate gaming laws were passed because he figured the percentages were against him. Now he makes the odds instead of defying them. In 1969, he claims, he was right on 78 per cent of his picks.

"I'm good on figures," he says, "bad on names. Unless they're cornerbacks. Ask me. Marsalis... McCloughan... Barney."

His interest is, strictly professional. They influence point spreads.

(Newspaper Enterprise Assn.)

By IRA BERKOW, NEA Sports Editor

IRA BERKOW

NEW YORK—(NEA)—Dave Meggyesy, it seems, was one of those football brutes that the alleged football player Bill Cosby played against at Temple. Cosby recalls how the other team roared onto the field like mad animals as the coach encouraged them with a mighty whip.

By the time Meggyesy was a junior at Syracuse, however, he was already approaching a self-truth. "Football," writes Meggyesy in his forthcoming autobiography, "Out of Their League," "is one of the most dehumanizing experiences a person can face." So this spring Meggyesy, after seven more years as a St. Louis Cardinal linebacker, quit his \$30,000-a-year job.

With the intimation that this is a public service, he wrote the book. It is the odyssey of Meggyesy as much as an expose on the care and feeding of football players in America.

After one reads Meggyesy's words that pep pills are dispensed by team trainers like "penny candy," and of the cash slipped to star college players by alumni, and of the racism practiced by Cardinal coaches, and that coaches are autocratic and "emasculating" and that President Nixon is a "football freak," after they all get their sensationalized due, we are confronted with the question: Just what does all this mean, if anything?

Nationally, it seems that football is becoming a larger part of the lives of many. Why, we can hardly use lip ice any more without the National Football League giving us the O.K. Its influence also reaches to the young, sometimes in subtle ways.

The idea of Saturday heroes and all-American images is not what is meant, for that may be overblown. But take Pop Warner football. Our son's coach, a man whose avocation is, say, plumbing six days a week, models himself after Vince Lombardi, whose tough, winning ways propelled him to a kind of sainthood. The Pop

Six Aides to Hickel Fired In One Hour

WASHINGTON (AP) — In an action the White House characterized as routine, six aides to former Interior Secretary Walter J. Hickel have been fired on one-hour notice.

The action came 48 hours after Hickel was fired by President Nixon for lack of "mutual confidence."

"From the White House standpoint, it is normal that when a Cabinet secretary leaves, there will be other changes within his department," an administration spokesman said.

A source in the Interior Department said the six were called together shortly before quitting time Friday by Frederick V. Malek, a White House special assistant, and William Rogers, deputy undersecretary of the Interior.

"There was no reason given at all," said Josef F. Holbert, one of the six. "We were given only an hour's notice."

Holbert was deputy director of information and long-time press aide to Hickel.

Hope School Lunch Menu For Next Week

Monday

Pope Forgives Man Who Tried to Kill Him

MANILA (AP) — Pope Paul VI has forgiven the man who tried to kill him and has blessed the crucifix that was used to conceal the murder weapon, a Manila television station says.

OCCUPIED TERRITORY. A year ago, a band of Indians invaded Alcatraz Island and claimed the abandoned federal prison site as surplus property under an old treaty. Twelve months later, the Indians are still occupying the island off San Francisco, claiming upwards of 100 permanent residents.

HE'S LEGAL. This basset hound proudly displays its Los Angeles dog license, which is cast in the shape of the city hall. The composite photo emphasizes the tag, which is slightly longer than one inch and can be worn comfortably by a miniature poodle, according to the city's Department of Animal Regulation.

GM, UAW Air Absenteeism and Dropouts

DETROIT (AP) — General Motors and the United Auto Workers are planning a joint attempt to cure two galloping socio-economic plagues—absenteeism and new employee dropouts.

The joint endeavor is provided for in the new multimillion-dollar contract between GM and the UAW, under which the company estimates wages of hourly workers will advance to between \$12,000 and \$13,000 a year in 1973.

Details of the corrective programs still are to be worked out. But GM Vice President Earl Bramblett and UAW President Leonard Woodcock said it is planned for newly hired workers to be led through an orientation program before being assigned a job.

Absenteeism has doubled over the last 10 years to an average 5.5 per cent. Much of it occurs on Friday and Monday, when it may top 15 per cent.

Absenteeism causes increases in manufacturing cost and product quality problems.

When there are unfilled stations along the assembly line, workers must be pulled from regular jobs to which they are accustomed to fill the blanks, and their speed at the strange job may be so slow that it affects the line's pace.

Absenteeism also causes some plant managers to employ larger work forces than might be necessary to be sure enough personnel always are on hand.

College students sometimes are hired during the summers just for Fridays and Mondays, when absenteeism peaks.

Chrysler of Canada, Ltd., says it finds one of every 10 new employees quits within 10 days.

In the GM-UAW experiment, newly hired workers will go to both separate and joint briefings on job responsibilities and rights before taking on their jobs.

Ex-First Lady in England

LONDON (AP) — Mrs. Lyndon B. Johnson had a chat with Prime Minister Edward Heath at the House of Commons Thursday.

The former first lady is visiting England to promote the sale of her published White House memoirs.

Registration of Negroes Up 212,000

ATLANTA, Ga. (AP) — The executive director of the non-partisan Voter Education Project Inc. says the registration of 212,000 new black voters during the past two years in the South paid off with the election of 75 new Negro officeholders.

Their election Nov. 3, Director John Lewis said in a report, brings to 665 the number of Negroes now holding elective office in the 11 Southern states. Thirty-five incumbents were re-elected, he said.

"The substantial voter registration increase that has taken place over the last five years is now returning dividends," he said. "The election of black people, especially on the local levels, has strengthened the political power of a people who were long denied the right to participate in the democratic process."

"While the nation still gropes with domestic and international turmoil," he said, "the Southern region of this vast land appears to be laying a foundation of bringing people together—new alliances to assure all its citizens a voice."

"We are witnessing, particularly with the 1970 elections, the power of the ballot," he said.

"While many segregationists still insist on antiblack platitudes to win votes, it is becoming increasingly evident that the position of keeping blacks down and out of the political process cannot endure."

Swiss Arms Maker One of Six Convicted

LAUSANNE, Switzerland (AP) — Dr. Dieter Buehrle, multimillionaire head of Switzerland's largest arms making company, and five of his company's officials were convicted by the Supreme Court today of illegally exporting large quantities of war material to international crisis spots.

The biggest shipments went to South Africa, Israel and Egypt. The 49-year-old Buehrle, sometimes dubbed the "Swiss Krupp," was sentenced to a suspended term of eight months in prison, and a fine of \$4,000.

Gabriel Lebedinsky, 56, chief of the arms sales division and a personal friend of Buehrle, received an 18-month sentence.

The four others, also employed by Werkzeugmaschinenfabrik Oerlikon Buehrle A.G., Zurich, drew terms ranging from 16 months to a suspended three-week sentence.

Buehrle, who concedes he is probably the richest man in Switzerland, was found guilty of violating a 1949 government decree under which embargos are imposed on arms deliveries to countries at war or threatened by conflict. He was acquitted of charges of complicity in falsifying documents used in the shipments.

Charges against him had been limited to involvement in the sales to South Africa. They made up almost two thirds of the total illegal dealings, which were valued at \$20.5 million and included sales of cannon and ammunition. The shipments were made between 1963 and 1968.

Lebedinsky, Vice Director Dr. Alexandre Gelbert, and Confidential Clerk Max Meili had pleaded guilty to charges of forgery and violating the federal decree in arranging all illegal exports, including sales to Saudi Arabia, Nigeria, Malaysia and Lebanon.

Spending May Exceed \$225 Billion Limit

WASHINGTON (AP) — Administration sources are estimating federal spending may exceed President Nixon's \$225-billion limit by \$10 billion during the fiscal year that begins next July 1.

Such a \$235-billion spending level would be nearly \$30 billion above the official estimate for the current fiscal year. Some budget watchers in Congress predict even more spending during the next fiscal year.

The Office of Management and Budget is working on next year's budget at a more deliberate pace than usual because the new Congress apparently will delay convening until Jan. 18, two weeks later than normal.

In addition, preparation of the budget is being hampered by the uncertain status of several spending and revenue bills pending in the lame-duck session of the current Congress.

Budget makers also are hesitant about predicting revenues for the next fiscal year because of the uncertainty of unchecked unemployment and the failure of business to recover from the economic slump at the rate expected.

Caroline Turns 13 on Friday

HYANNIS PORT, Mass. (AP) — Caroline Kennedy turns 13 today.

With the late president's daughter for the Thanksgiving holiday at the Kennedy compound on the shore of Nantucket Sound were her mother, Mrs. Jacqueline Kennedy Onassis, stepfather Aristotle Onassis and her brother, John F. Kennedy Jr.

First Negro General Dies at 93

NORTH CHICAGO, Ill. (AP) — Benjamin O. Davis Sr., the first black general in the U.S. armed forces, has died in Great Lakes Naval Hospital at 93.

Hospital spokesmen said the cause of death Thursday was believed to be leukemia.

Davis retired with the rank of brigadier general in 1948, the year most racial barriers were ordered dropped by the Army, after a career that took him from service in the ranks to the staff of Gen. Dwight D. Eisenhower in World War II.

His son, Benjamin O. Davis Jr., rose to lieutenant general in the Air Force before retiring. He now is chief of federal guards on commercial airlines.

In the last four years, since the death of his wife, the elder Davis had been living in Chicago with a daughter, Mrs. Elvora D. McLendon. He entered the hospital Nov. 19.

Services are scheduled for 2 p.m. Monday at Ft. Myer Chapel outside Washington, the city where he lived as a youth. Burial will be in Arlington National Cemetery.

Davis dropped out of Howard University and entered the Army on July 3, 1898, as a temporary first lieutenant in charge of a high school volunteer company in the Spanish-American War.

After serving on the Mexican border he was mustered out, but re-entered in the enlisted ranks and served two years in the Philippines during the uprisings of 1901-02.

He was commissioned a second lieutenant in 1901 and assigned to the all-black 10th Cavalry, which won a reputation for toughness and courage on the Western frontier.

World War I found him attached to an all-black cavalry outfit, the 9th Regiment, and he reached the rank of lieutenant colonel in 1920.

He taught military science for a time at Tuskegee Institute in Alabama and was promoted to colonel in 1929.

In 1940, after President Franklin D. Roosevelt signed a measure outlawing racial discrimination in entrance requirements and training in the military, Davis was promoted to brigadier general.

Actresses Wait on Tables

NEW YORK (AP) — Actress Helen Hayes and writer Anita Loos were volunteer waitresses at the Salvation Army's annual Thanksgiving dinner for 1,500 needy in a downtown cafeteria.

Miss Hayes said she and Miss Loos were working on a book about "the good things in New York," and their service at the dinner was one way of doing research.

U.S. Command Says Incidents High in DMZ

SAIGON (AP) — The U.S. Command said today there have been more than 14,000 incidents and sightings indicating enemy activity in Vietnam's Demilitarized Zone since the United States stopped bombing North Vietnam on Nov. 1, 1968.

During the same period, a spokesman said, there have been more than 7,000 "engagements" in which American planes, artillery or ground forces attacked North Vietnamese positions inside the 6-mile-wide zone.

The spokesman said U.S. and South Vietnamese patrols operate in the southern half of the DMZ "from time to time, whenever there are indications of enemy activity in the southern half which may constitute a threat to allied forces located in the Republic of Vietnam south of the DMZ."

The U.S. Command said military security "precludes providing frequency of these patrols or public announcement of these patrols. If patrols make significant contact they are announced just as is any significant contact."

The Command said there are no U.S. ground combat troops operating in North Vietnam, but when asked if the term "ground combat troops" includes reconnaissance patrols and sabotage teams, a spokesman said: "I'm not going to go beyond my statement."

It is known that small reconnaissance patrols made up of civilian irregulars and led by American special forces troops operate in Laos. There have been unconfirmed reports of similar patrols operating on North Vietnam's border with Laos to check out the movement of enemy supplies and troops.

Under questioning, the Command acknowledged that many of the incidents inside the DMZ are not reported on a daily basis. But the spokesman said there have been no enemy mortar or rocket attacks across the DMZ since March. The last time an American reconnaissance plane was fired on was two months ago, he said. This had not been reported previously.

U.S. officials maintain that under an understanding that went along with the bombing halt, Hanoi agreed to keep the DMZ free of military activity. Hanoi has denied that there is any such understanding.

Sources in Saigon said many of the incidents and sightings reported by the U.S. Command are minor, including such things as the sighting of freshly built bunkers and truck lights that might indicate movements of supplies.

Informants said the number of reported sightings goes up sometimes and down at other times, and that they attach no real significance to the pattern.

1649 Painting Has Sold for \$5.5 Million

LONDON (AP) — A portrait Velasquez painted in 1649 just for practice was sold at auction today to a New York dealer for the all-time record price of \$5.544 million.

The Wildenstein art firm in New York made the purchase after spirited bidding at Christies that got so high the London galleries and museums, anxious to keep the treasure in Britain, were simply unable to match the pace.

The previous highest price for any painting was \$3.285 million for Rembrandt's "Aristotle Contemplating the Bust of Homer" at the Parke-Bernet galleries of New York nine years ago.

The Spanish master's work is a painting of his mulatto assistant, Juan de Pareja.

The "Mulatto," measuring 30 by 25 inches, was easily the prime attraction at this morning's auction which produced a total sale amounting to \$5,607,200.

Fontaine to Return to TV

BOSTON (AP) — Frank Fontaine, the "Crazy Guggenheim" of the Jackie Gleason television show, will be the guest of honor at a testimonial Dec. 8 at the Hynes Auditorium.

He was stricken with a heart attack recently while performing on the Jerry Lewis Telethon for funds to combat muscular dystrophy.

Fontaine and his wife, parents of 11 children, live in Winchester.

College Cost Reduction Discussed

WASHINGTON (AP) — Take heart, Dad, if you still have youngsters at home with college aspirations. The bill might be reduced by 25 per cent if present thinking in some higher education circles bears fruit.

Some university presidents agree the time is ripe to make changes that will cut school time 25 per cent for the four-year bachelors degree and possibly two years for the lofty Ph.D.—bringing down the cost to both parents and the schools themselves.

Referring to the tight and gloomy financial condition of most universities, both private and public, Dr. Glen Terrell of Washington state said:

"I think that fiscal conditions ... will make it necessary to do something like this. It will force us to do innovating that we are not inclined to do."

Terrell was commenting on a Carnegie Commission for Higher Education report released this week that called for a restructuring of the degree system, largely untouched for 80 years, to require fewer years in the classroom.

The report also suggested creation of two new degrees between the B.A. and Ph.D.

—Master of Philosophy after five or six years, qualifying the recipient to teach in high school and lower division in college.

—Doctor of Arts, envisioned as equal to a Ph.D., but with emphasis on a broader field of basic knowledge and less on research as required by the Ph.D. It would prepare the recipient for teaching at the university level.

Authorities say the need for changing the degree structure already is well recognized and about 75 universities either have or are studying the possibility of creating a degree between the bachelor and doctoral degrees.

Yale University, for example, has revised its curriculum for a Master of Philosophy degree that qualifies the recipient for teaching but does not require the additional two years for the thesis that leads to a doctorate.

Commenting that new degrees already are in use and spreading, Dr. Byrum E. Carter, chancellor of the Bloomington campus of Indiana University, said, "I don't think there is any doubt there are a substantial number of Ph.D. programs that take an excessive number of years."

Some educators are calling for even more radical reductions in the time spent in school, especially for an expensive medical degree.

While a Yale spokesman did not foresee shortening the time to obtain a degree, he noted that each year Yale admits about 50 students who are given sophomore standing because tests have shown they have acquired knowledge in three or more subjects beyond what is offered in freshman courses.

The Carnegie Commission report, prepared by a panel that included presidents of such schools as Notre Dame, Harvard and the University of North Carolina, said reduction in the time spent in school can be accomplished "without sacrificing educational quality."

To achieve this goal, it suggested accrediting high schools to give first-year college work to high school seniors and remedial summer school for those who don't complete the work.

Stressing his point, commission chairman Clark Kerr declared, "The last year of high school is now largely wasted."

DC8 Crash Kills 48 in Alaskan Crash

By KENT STURGIS
ANCHORAGE, Alaska (AP) — A chartered DC8 jetliner carrying military personnel and dependents crashed, exploded in towering flames and burned on takeoff Friday night, killing 48 of the 230 persons aboard.

Three persons were missing, said an Alaska Air Command spokesman who gave the death total.

The spokesman said 168 persons, more than 100 of them injured, were counted at a hospital on nearby Elmendorf Air Force Base. He said 11 others were in Anchorage hospitals.

The spokesman said the plane carried 219 passengers and 11 crewmen, one more crewman than given in earlier reports.

A witness said the plane, owned by Capitol International Airways, was moving "too fast to land and too slow to take off" when it crashed at Anchorage International Airport after refueling and changing crewmen.

A survivor said the plane "only climbed for a few minutes, then it sort of glided down."

John Pederson, an airport mechanic, said the plane's nose dropped, then ran off the runway. It caught fire, he said, and then exploded twice about three or four minutes later.

Master Sgt. Robert L. Kellar of New York City, a 16-year Army veteran who said he survived two previous crashes, told of "panic at first, three or four seconds at most."

The father of six said other GIs quelled the panic "instantly, and this was one of the things that pulled us out."

Another survivor, Spec. 4 William Goetz of Tacoma, Wash., said the plane approached the end of the runway.

"I thought, 'We're not going to make it,'" he said. "The plane was coming apart."

Goetz and Kellar, both of whom suffered minor injuries, were interviewed in a hospital after treatment.

The flight originated at McCord Air Force Base, Tacoma, Wash. It was to have stopped at Yakota, Japan, as well as at Anchorage, en route to Cam Ranh Bay, South Vietnam.

A McCord spokesman said the passengers were believed to be Army and Air Force personnel. A Pentagon spokesman said they included replacements for assignment to units in South Vietnam.

Goetz said the plane also carried military dependents, including at least one child. They apparently were bound for Japan.

M.H. Rowe, executive vice president of Capitol, said in Nashville, Tenn., he was told most of the crew survived.

Thinks U.S. Overexposed in Some Areas

NEW YORK (AP) — Frank Shakespeare, director of the United States Information Agency, says the U.S. is handicapped by "overexposure" in some countries and should selectively revise programs "for a lower profile of our activities."

He said he has already called for such modifications.

Shakespeare, writing in a guest column in today's editions of The New York Times, said the United States has been best known abroad for its prosperity, technical know-how and efficiency.

"To the developing nation," he said, "they may represent an unattainable ideal while the Russians, with their lower living standards and less efficiency, blend more easily into the countryside."

Without going into specifics, Shakespeare said he has already called for "a lower profile of our activities in some countries by reducing programs involving us in overexposure and too close identification with the house governments."
